

Welcome to the World of EcoAdventures

EcoAdventures, Inc. was founded in 1992 by a group of dedicated travel people who collectively represent over 75 years of travel industry experience, and who share the belief that ecologically responsible tourism will heighten awareness of global ecological issues and further the efforts to preserve fragile and endangered ecosystems. EcoAdventures specializes in customized, individual itineraries and small groups that minimize the ecological impact of tourism on the areas visited. It is our belief and hope that the growing economic sector of ecotourism will replace more exploitative economic pursuits.

Our staff has been to all of the destinations featured in our brochures, usually more than once. This firsthand knowledge assures an expertly planned tour. We are also dedicated to high quality services and believe in a healthy mix of enjoyment and education.

EcoAdventures specializes in customized itineraries for individuals. All of the programs in this brochure are specially designed and priced for as few as one or two travelers, and offer the choice of several hotel levels. The traveler benefits from the attention and assistance of our representative offices, while still enjoying a high level of choice and freedom.
