

M/Y Eric, Flamingo, & Letty

6-Day & 8-Day Cruises

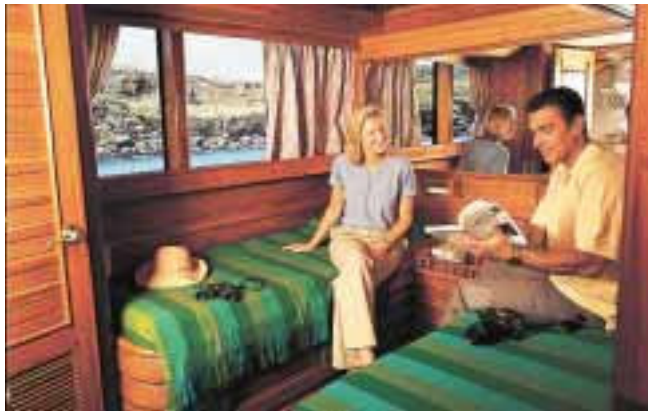

A signature fleet of three, first class, 20-passenger ships was outfitted in 1990. Each of these three identical yachts, the M/Y Eric, Flamingo and Letty were custom-designed exclusively for Galapagos expeditions. Eighty-three feet long with 24-foot beams, the yachts offer spacious accommodations for small groups. With only twenty passengers and two expert natural guides per yacht, each guest is ensured a personalized voyage.

The interiors, designed with polished teak wood, have fully air-conditioned cabins and public areas. Each yacht also features a dining room, well-stocked bar, conference area with television, VCR, stereo cassette/CD equipment and book and video library. Picture windows surround the upper two decks and offer spectacular panoramic views of the sea and islands.

Thanks to the small group size, your expedition to the Galapagos can be at a much more leisurely pace. Snorkeling equipment, wet suits and sea kayaks are provided at no additional charge.
